HP EliteOne 800 G1 All-in-One PC

Impressive performance that fits right in.
The design looks amazing. Your business performance will look even better. Trust your mission-critical projects to an all-in-one PC that's built to handle the demands of virtually any business environment. Power your workday with a secure, enterprise-class PC that's easy to manage and just as reliable as it is stylish. Integrate touch computing for a truly hands-on experience.

HP recommends Windows.

Stylish efficiency from edge to edge

Turn the front room into the showroom, and optimize the space of your back room as well. With slim, sleek glass across a 23-inch diagonal screen, this all-in-one PC impresses virtually anywhere.

Stay organized and free up more room for work. This space-saving all-in-one has several stand options, and easily mounts on the wall.[1]

Fast-track your performance

Quickly open new files and switch applications with less wait time thanks to solid-state drives and solid-state hybrid drive options.[2] Get the latest processing technology with a choice of 4th generation Intel® Core™ processors.[3]

Watch your inbox while working on other tasks. Connect up to four displays, using the digital DisplayPort with multi-stream and optional discrete graphics card.[4]
Intel® Smart Response Technology (SRT),[5] a disk cache solution, delivers similar performance associated with Solid State Drives while retaining the data storage capacity of today's large Hard Disk Drives.
Make the most of virtual conferencing. Bring work to life through rich sound and video using DTS Studio Sound and an HD webcam.[6]

Experience the simplicity of touch

Delight users with the intuitive control of an optional 10-point capacitive touchscreen that makes the most of Windows 8.[7] Rotation sensors let you see what's on screen as it was meant to be displayed by rotating from landscape to portrait.[8]

The hub of your mobile world

Speed up charging with a fast charging USB port. The nearly 2.8x stronger charging current helps compatible devices charge faster than standard USB 3.0 ports.[9]
Easily share your internet connection with your devices and help colleagues get online fast with HP Wireless Hotspot.[10]
Maintain tighter control over device security. Use the optional integrated near-field communications (NFC) capabilities to support custom applications such as advanced user authentication.[11]

Heavy security, efficiently managed, reliability for the long haul

Keep it secure, keep it simple. IT efficiency reigns supreme when it's backed by a full portfolio of HP Client Security[12] and Intel vPro[13] management features.
Save your data. RAID configurations utilize dual storage drives to automatically back up and help protect your sensitive data.[14] [15]
Count on the support you need to get long-term value out of your investment. This work-ready PC is designed for a long lifecycle, with platform stability up to 30 months.
Rest assured. Talk to an agent any time and get priority service at any HP repair center with HP Elite Premium Support, at no additional charge.[16]
HP EliteOne PCs are rigorously tested to help ensure reliability. During the HP Total Test Process, our PCs experience 115,000 hours of performance trials to help get you through your business day.

HP EliteOne 800 G1 All-in-One PC

HP recommends Windows.

Software	Computrace (status tracing); Device Access Manager; Drive Encryption; File Sanitizer (Activated via Wizard); Disk Sanitizer (external version); Microsoft Security Essentials (Windows 7); Microsoft Defender (Windows 8); Security Manager; Secure Erase (Windows 8); Cyberlink Media Suite; Cyberlink PhotoDirector; Cyberlink Power Director; Cyberlink Power DVD, BD; Cyberlink Power2Go (Secure Burn); Cyberlink YouCam BE; Cyberlink YouCam Webcam Sharing Manager; HP ePrint Driver; HP PageLift; HP Support Assistant (Windows 7); HP Recovery Disk Creator (Windows 8); HP Recovery Manager (Windows 8 Non-Touch model only); HP QuickStart (Windows 8); Adobe Flash Player (Windows 7); Bing Search for Internet Explorer 10 (Windows 7); Evernote; PDF Complete; Skype; Buy Office
Dimensions	56 x 5.03 x 38.9 cm (without stand)
Weight	Starting at 7.89 kg (without Touch Panel); Starting at 8.74 kg (with Touch Panel) Exact weight depends on configuration
Energy Efficiency Compliance	ENERGY STAR® qualified configurations available
Power	200W, up to 93% efficient, active PFC
Expansion Solutions	1 mini PCIe; 1 MXM; 1 mSATA One 13,3 cm (5.25") One 6,35 cm (2.5")
Warranty	3-year limited warranty including 3 years of parts, labour, and next-business-day onsite service. Terms and conditions vary by country. Certain restrictions and exclusions apply.

[1] Wall mounting hardware sold separately.; [2] Solid State Hybrid Drives planned to be available October 2013.; [3] Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.; [4] Support for external displays as a standard feature through integrated processor-based graphics is dependent upon the particular PC platform/form factor; the actual number of displays supported will vary. An optional discrete graphics solution will be required for the support of additional displays. Additional cables required. DisplayPort with multi-stream through integrated graphics is planned to be available in fall 2013 as an integrated feature and as a web update in late summer 2013.; [5] Requires a compatible Intel® Core processor, enabled chipset, Intel® Rapid Storage technology software and non-SED HDD + optional mSATA SSD flash cache module. Intel® Smart Response Technology is only available on select 2013 HP systems. Depending on system configuration, results may vary. mSATA SSD is planned to be available in August 2013.; [6] Webcam and internet service required for video conferencing, and not included.; [7] Not all features are available in all editions of Windows 8. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows 8 functionality. See http://www.microsoft.com.; [8] Display only rotates with height adjustable and reclining stand or by mounting in portrait position using the VESA wall mount.; [9] 2.8x compared to USB 3.0. 5x compared to USB 2.0. Charging times will vary by device depending on compatibility with fast charging port.; [10] The wireless hotspot application requires an active internet connection, separately purchased data plan, and separately purchased wireless NIC card. While HP wireless hotspot is active, on-device applications will continue to work and will use the same data plan as the wireless hotspot. Wireless hotspot data usage may incur additional charges. Check with your internet service provider for plan details. Requires Windows.; [11] Near Field Communication (NFC) is planned to be available in August 2013. NFC is an optional feature. NFC authentication software solution is sold separately.; [12] Requires Windows.; [13] Some functionality of this technology, such as Intel® Active management technology and Intel Virtualization technology, requires additional 3rd party software in order to run. Availability of future "virtual appliances" applications for Intel vPro technology is dependent on 3rd party software providers. Microsoft Windows required.; [14] RAID configuration is optional and does require a second hard drive.; [15] Sold separately or as an optional feature.; [16] Elite Support varies by region.

HP EliteOne 800 G1 All-in-One PC

HP recommends Windows.

Accessories and services (not included)

HP 8-GB PC3-12800 (DDR3-1600 MHz) SODIMM Memory

Maximize your business PC performance with HP Memory. Upgrading your memory is a cost-effective way to boost your system performance without having to upgrade your processor.

Product number: B4U40AA

HP Height Adjustable and Reclining Stand

Sitting down, standing up or on display. The HP Height Adjustable and Reclining Stand is ideal for single or multi-user environments and designed specifically for the HP Compaq Pro 6300 All-in-One and HP Compaq Elite 8300 All-in-One Business PCs.

Product number: C1N43AA

HP USB Graphics Adapter

HP offers a variety of optional products (each sold separately) designed to complement our monitors and enhance the overall computing experience. The super-compact HP USB Graphics Adapter enables connection of up to six simultaneous displays to help you boost productivity and multi-task across several open applications. Use one Adapter to bridge between a notebook or desktop PC and second monitor or use multiple Adapters to connect several displays to each other. Supports resolutions up to 1920 x 1080 (widescreen) or 1600 x 1200 (traditional).

Product number: NL571AA

HP 128 GB SATA 6 Solid State Drive

Boost the performance and robustness of your HP Business Desktop PC with an HP Solid State Drive. The HP Solid State Drives are a drop-in replacement for the 2.5-inch or 3.5-inch (with bracket) hard disk drive of some HP Compaq Business Desktop PCs providing many performance and durability improvements over traditional Hard Disk Drive (HDD) technology.

Product number: QV063AA

HP Wireless Keyboard and Mouse

The HP Wireless Keyboard and Mouse places advanced functionality and ease of operation at your fingertips. Stop hiding wires and regain a clutter-free work space with a cordless keyboard, cordless laser mouse and USB wireless receiver in a single package – built with the environment in mind.

Product number: QY449AA

4-year Next Business Day Onsite

Receive 4 years of next business day onsite repair from an HP-qualified technician for your computing device, if the issue cannot be solved remotely

Product number: U7897E
